SW SPECIFICATIONS

HEATER CONSTRUCTION

- Black powder-coat aluminized steel housing.

LAMP ELEMENTS

- Coiled wire housed within a sealed quartz tubing.
- Porcelain end caps
- Instantaneous heat-up & cool-down.
- Quartz tube

CONTROLS

- Field supplied.

ELECTRICAL SUPPLY

- Voltages inputs of 120, 208, 240, 480, 575.
- Single-phase
- 500 to 4,000W per element.

MOUNTING

- 0° to 45° adjustable brackets.

REFLECTORS

- Highly polished aluminum.
- Wide, symmetric design.

APPROVALS

- CSA Listed for indoor and outdoor applications.
- Commercial/Industrial Approval.
- CSA 22.2 #46 - M1988.
- UL 2021, 1997.

LIMITED WARRANTY

- All components - 1 year.
- Please contact the factory for further information on the terms and conditions.

Clearances to combustibles **must** be maintained. Clearances are measured from the radiant surface and/or heater bottom to the nearest combustable surface. It is essential that the position and the angle of the installation avoids any possibility of curtains, draperies or other flammable material coming in contact with the heater.

WRITTEN SPECIFICATIONS

HEATER PARAMETER/SPECIFICATIONS

- Medium wave electric infrared heaters shall be furnished and installed in accordance with governing codes and as shown per drawing(s) provided. Short wave electric heaters shall be **RE-VERBER-RAY BAH SERIES**, as manufactured by Brant Radiant Heaters Ltd, Paris, ON N3L 3R1.
- Medium wave infrared heaters shall be Designed Certified by CSA and bear the CSA Seal of Certification for the United States and Canada.
- The supplier shall provide manufacturer's published warranty covering all components utilized in the heater control assembly for a period of one (1) year.
- The supplier shall furnish the owner/contractor with _____ copies of the engineering specification form, showing physical dimensions, installation detail, recommendations, wiring diagrams, and spare parts list.
- An Installation, Operation, Maintenance and Parts Manual (IOPM) shall be supplied with each heater.
- The manufacturer shall have a minimum of 50 years of manufacturing experience producing infrared heaters.
- Medium wave infrared heaters must be CSA Listed to operate at the designated rating of _____kW/h.
- Electric medium wave infrared space heaters shall be supplied and installed in accordance with the manufacturers certified installation instructions and governing codes, as shown per building drawing(s) _____. Heaters shall be BAH Series, model numbers, input ranges in Watts.

BAH SERIES HEATER CONTROLS

- Field supply applicable controls.
- Heaters shall operate in given voltages:

<u>Volt</u>	<u>Phase</u>	<u>Hertz</u>
120V	1ph	50/60
208V	1ph	50/60
240V	1ph	50/60
480V	1ph	50/60
575V	1ph	50/60
- Heaters shall operate in given wattage inputs of 500 to 4,000.

MEDIUM WAVE INFRARED HEATER CONSTRUCTION

- The heater housing shall be constructed of either black powder-coated aluminized steel.
- The heater reflector shall be constructed of highly polished aluminum with a multi-faceted design.
- The emitter tubing shall be argon filled evacuated blown quartz with high temperature ceramic end caps.
- The quartz tubing shall be opaque in color allowing maximum radiant heat transfer.
- The protective grill be bright zinc coated.
- Optional factory supplied mounting brackets shall accommodate for sidewall or ceiling mounting.
